Company Profile

HYDR-AID drink work better to rehydrate the body than plain water, which does not contain Electrolytes, required by body. HYDR-AID carries a full range of electrolyte replacement, nutrition and supplements for the triathlete. We offer in 16gm, 1250gm.

It is very important to keep children and adults hydrated. Some of the common causes of dehydration are heat exhaustion, excessive sweating, bouts of diarrhea and/or vomiting, bacterial infection, viral infection, dieting, etc.

THE IMPORTANCE OF HYDR-AID

This new electrolyte replacement drink is high quality, with an excellent taste, state of the art electrolytes replenisher that helps to prevent and treat dehydration.

This new electrolyte replacement drink was specifically formulated to prevent and treat dehydration by replenishing the electrolytes, fluids and minerals that the body needs to function properly. Our Electrolyte replacement drink contains "No Caffeine".
